MultiZone

Multislide: an intuitive and pleasant interface for perfect results

What if your hob could be your personal cooking assistant? With Cook with Me, access 100 guided recipes and 30 special programs. The Preci Probe monitors temperature and time, while VaryCook adjusts heat as you move your pan. Multizone ensures even results, and Multislider lets you control everything with a swipe.

Cook at the right temperature with the Preci Probe. This wireless sensor connects to the hOn app to monitor the exact temperature of your food—liquid or solid—so you can control time, power, and heat for perfect results every time.

Connectivity at your fingertips. Discover expert tips, smart recipes, and guided cooking to create high-quality dishes with your personal touch. Plus, control your connected appliances anytime, anywhere.

Haier Cook with Me: Your Personal Kitchen Assistant

Explore 100 guided recipes and 30 special programs on the hOn app, tailored to different foods and cooking styles. Whatever your preference, the choice is yours!

Cook at the right temperature with VaryCook

Forget complicated settings—just move your pan up or down, and the power level adjusts automatically. Perfect for delicate dishes like sauces and desserts, just like the pros do!

For more flexibility in your kitchen!

Multizone technology adapts to any pan size—large or small—and ensures even cooking every time. You can even use multiple small pans on the same zone!

An intuitive way to control your hob

Multislider controls make cooking simple and precise. Just slide your finger to adjust the power level—easy, intuitive, and designed for perfect results every time.
