

LOFRA
MADE IN ITALY

Sirio HGB7E0

The Lofra HGB7E0 29220214 hob with white glass finish measures 75 cm, has cast iron grills and 5 gas burners, of which a triple crown, with an efficiency 20% higher than European standards.

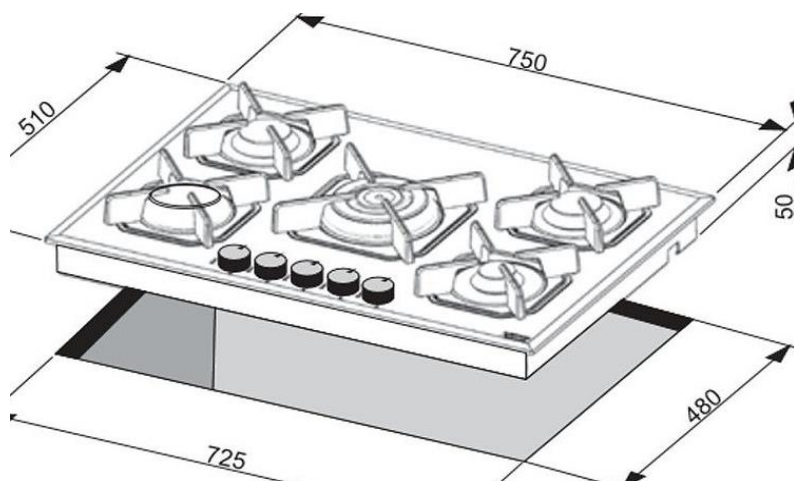

→ **5 Series with 3 Gas Burners:** absolute quality of the burners, exceptionally constant in the delivery and perfect in operation

→ **1 Triple Crown:** it is the ideal burner for ultra-fast cooking. Of extraordinary power, it ensures rapid cooking and thermal uniformity from the center to the edges of pots and pans, for highly professional results.

→ **Electronic ignition integrated with the knob:** a very practical device that allows the fires to be lit by turning the gas knob.

→ **Total Gas-Stop protection:** all the tops comply with the EEC safety regulations and each burner is protected by the gas stop system which promptly stops the gas supply in case of flame extinction.

→ **Cast iron grills:** unchanging over time and more practical to clean, they are recommended in case of frequent and intense use of the hob.
